

Basic 63 Can Opener

SKU COBS63 · stainless steel · entry level

DAVID ROSE

Basic 63 Can Opener

stainless · 63 cm shaft · SKU COBS63

Professional entry-level countertop can opener dariosero® Basic, entirely in stainless steel. For small operations - bars, snack bars, cafés, small kitchens and workshops - that handle limited quantities of canned goods, up to 3 cans a day. Version with increased working height (63 cm shaft).

1. Full stainless steel

Body entirely in stainless steel: hygiene, corrosion resistance and suitability for food contact.

2. Wheel-blade system

Opens cans of different diameters with a clean cut; wheel and blade are the cutting components.

3. Removable, washable parts

The cutting parts are easily removed and washed in the dishwasher - hygiene according to HACCP criteria.

4. Bench clamp

Stable fixing to the worktop for safe, continuous use.
