

Basic gear wheel

SKU WHCOBS · steel · original spare part

CARIDORASERO

Basic gear wheel

SKU WHCOBS · steel · original spare part

Original spare part for dariosero® Basic can openers. Ø 25 mm drive gear wheel; together with the blade it forms the cutting system. Removable and washable.

1. 25 mm diameter

One size for the whole Basic line: no variants to tell apart when ordering.

2. Removable and washable

It comes off for cleaning and goes in the dishwasher, as HACCP criteria require.

3. Cutting part

It drives the can while the blade cuts: the two parts work as a pair and are replaced together.

4. Fits the whole Basic line

The same spare part fits both Basic 40 and Basic 63.

SKU WHCOBS

SKU dariosero	WHCOBS
Material	Steel
Diameter	Ø 25 mm
Weight	40 g
Compatibility	Basic 40 · Basic 63
