

Bonzer® Titan

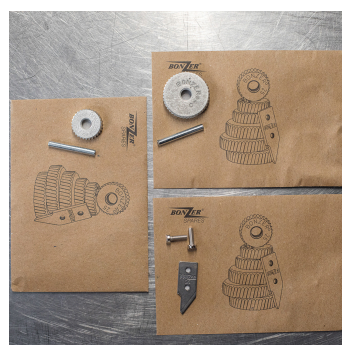

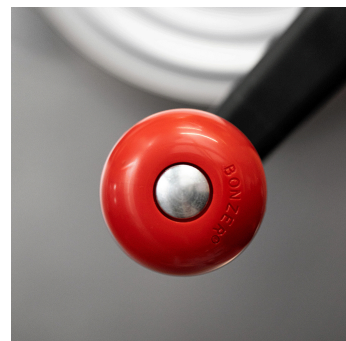

Full stainless steel. The top of the range

DARIDORASERO

Bonzer® Titan

Top-of-the-range NSF professional can opener, entirely in stainless steel

The flagship model: all-stainless-steel construction sized for continuous work. 40 mm gear wheel, long handle, EaziClean, NSF. For large canteens and hospitals, over 60 cans a day.

1. Full stainless steel construction

Body and handle entirely in stainless steel: maximum strength for hours of continuous opening, day after day.

2. 40 mm wheel + long handle

Maximum opening speed and minimum effort, even on larger-diameter cans and high-capacity containers.

3. Removable pull-off EaziClean blade

The blade carrier releases in one movement for washing and full sanitising between work cycles.

4. Raised-profile stainless steel base

The stainless steel "top hat" base plate keeps the can clear of the worktop and helps it turn while cutting.

SKU TITAN

Manufacturer code	12584-01
EAN	5023476048241
Capacity	over 60 cans/day
Wheel	40 mm
Body	Full stainless steel
Blade	Stainless steel AISI 301

EaziClean system

Blade removable without tools — full sanitising between uses

Sanitising sequence

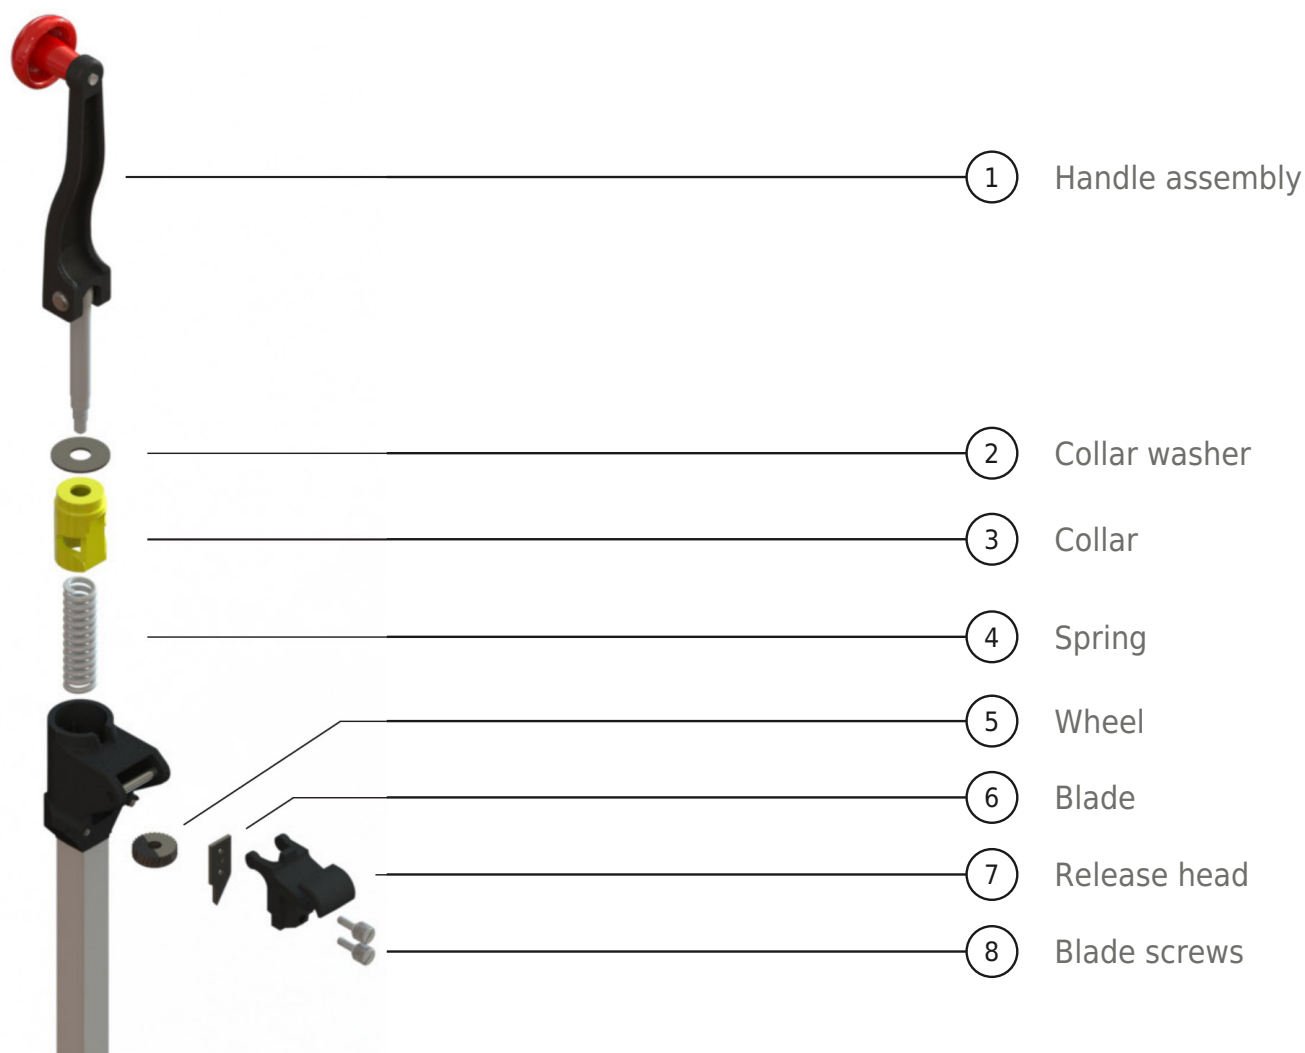

On Bonzer® EZ20, EZ60 and Titan — pull-release

- 1 Turn the lever and release the blade.
- 2 Wash the blade under running water with antibacterial detergent.
- 3 Pull the lever to seat the blade again.
- 4 Release the lever to lock the blade.
