DARIORASERO

Bonzer® stainless steel measures

Instructions for use, safety, cleaning and maintenance · single and double measures, all capacities

Importer for Italy: Euro Satip Srl, Via Nicomede Bianchi 109, 10146 Torino · info@dariorasero.com · +39 011 74 92 922

READ BEFORE USE

Read these instructions before use and keep them for the whole life of the product. The «General warnings and conditions of use» (dariorasero.com) are also part of these instructions.

1. INTENDED USE

Measuring liquids, powders and granules for food (bar, pastry, kitchen). Technical non-food uses only with dedicated measures and under the responsibility of the user, who checks that the stainless steel is compatible with the substance.

NOTE – NOMINAL CAPACITY

The stated capacity is obtained by filling the measure to the brim, held level. The measures are not legal measuring instruments: do not use them where the law requires verified measures, or for analytical precision dosing.

PROHIBITED USE

Do not use on a flame, hotplate, oven or microwave; with strong acids or concentrated chlorine solutions; as a ladle for boiling liquids.

2. USE AND CLEANING

- Wash before first use. Hold by the rings; with hot liquids the metal becomes hot.
- Wash when changing product (allergens, alcohol). Can be washed by hand with neutral detergent or in a **dishwasher**; dry. Do not use unrinsed chlorine, strong acids, scouring pads or abrasives.

3. INSPECTION, STORAGE AND DISPOSAL

Replace the measure if the rim is dented, or if it is deformed or corroded. Store clean and dry, separate from measures used for technical purposes. At end of life: metal recycling.

4. FOOD CONTACT

The measure is entirely intended for food contact, for short and repeated contact during measuring; it is not intended for cooking or storage. The declaration of compliance is sent with the shipping confirmation.

Warranty, liability, obligations of professional users, traceability and reporting: see the «General warnings and conditions of use» published on dariorasero.com. In case of discrepancy between the language versions, the Italian version prevails.
