DARIORASERO

OZ aluminium line – technical and industrial use

Instructions for use, safety, cleaning and maintenance · round and flat scoops, industrial shovel

Importer and distributor: Euro Satip Srl, Via Nicomede Bianchi 109, 10146 Torino · info@dariorasero.com · +39 011 74 92 922

READ BEFORE USE

Read these instructions before use and keep them for the whole life of the product. The «General warnings and conditions of use» (dariorasero.com) are also part of these instructions.

CAUTION – NOT INTENDED FOR FOOD CONTACT

OZ line items are **not intended for food contact**: do not use them for food, beverages or ingredients and do not store them together with food utensils.

1. INTENDED USE

Handling non-food materials (technical powders and granulates, sands, aggregates, de-icing salt, seeds, building materials).

PROHIBITED USE

- For food, beverages or ingredients.
- With substances incompatible with aluminium.
- As a lever, pick or hammer.
- Where flammable dusts or vapours are present, if the explosion risk assessment does not allow it: aluminium striking rusty steel can produce sparks.
- With molten metals or red-hot materials.

2. USE

- Read the safety data sheet of the substance handled and use the protective equipment it specifies.
- The user is responsible for checking that aluminium is compatible with the substance: fresh cement, lime, mortars and concrete are alkaline and attack aluminium; clean the item immediately after use.
- **1180 shovel:** before use, fully insert a sound handle of 36 mm diameter and secure it with a screw or rivet through the hole in the socket; check the fastening every time you use it.

3. CLEANING, INSPECTION AND DISPOSAL

Wash by hand with water and neutral detergent and dry; not in a dishwasher. Dispose of washing water according to the safety data sheet of the substance. Replace the item if deformed, cracked, corroded or with a sharp edge. Store separately from food utensils. At end of life: metal recycling, after cleaning.

Warranty, liability, obligations of professional users, traceability and reporting: see the «General warnings and conditions of use» published on dariorasero.com. In case of discrepancy between the language versions, the Italian version prevails.
