Manufacturer: Euro Satip Srl, Via Nicomede Bianchi 109, 10146 Torino – Made in Italy · info@dariorasero.com · +39 011 74 92 922

READ BEFORE USE

Read these instructions before use and keep them for the whole life of the product. The «General warnings and conditions of use» (dariorasero.com) are also part of these instructions.

1. INTENDED USE

Removing scales from fish, in fishmongers and professional kitchens.

PROHIBITED USE

Do not use on other foods or materials, as a lever or scraper, or with brines, marinades or strongly acidic or salted foods.

2. USE AND CLEANING

CAUTION – SHARP TEETH

Work with strokes away from your body and from the hand holding the fish. On that hand, wear a cut-resistant glove suitable for food contact.

- **Before each use**, wash and dry the fish scaler thoroughly.
- Run the head from the tail towards the head of the fish, with short strokes and without pressing; finish with the fin, belly and back combs.
- Immediately after use, rinse, remove the scales with a brush (not with your fingers), wash **by hand** with hot water and neutral detergent and dry immediately. **Do not wash in a dishwasher.**

3. INSPECTION, STORAGE AND DISPOSAL

Replace the fish scaler if the head is deformed, the teeth are bent, broken or corroded, or the handle is cracked or loose. Store it hanging by the hole, clean and dry. At end of life: head to metal recycling, handle to plastics recycling.

4. FOOD CONTACT

Part intended for food contact: **aluminium head**; the handle is not intended for food contact. The declaration of compliance is sent with the shipping confirmation.

INSTRUCTIONS FOR ALUMINIUM ARTICLES

- Not suitable for contact with strongly acidic or strongly salted foods.
- Intended for contact with food at refrigerated temperatures.
- Intended for contact with food at non-refrigerated temperatures for periods not exceeding 24 hours.
- Intended for contact at room temperature, also for periods exceeding 24 hours, with the following foods: cocoa and chocolate products; coffee; spices and herbs for infusion; sugar; cereals and cereal products; non-fresh pasta; bakery products; dried pulses and pulse products; dried fruit and nuts; dried mushrooms; dried vegetables; confectionery products; fine bakery wares, provided that the filling is not in direct contact with the aluminium.

Warranty, liability, obligations of professional users, traceability and reporting: see the «General warnings and conditions of use» published on dariorasero.com. In case of discrepancy between the language versions, the Italian version prevails.
