Round aluminium scoop 1550 ml

SKU 2026 · Light weight and abrasion resistance

Round 1550 ml food-grade aluminium scoop, made in Italy, for high volumes of abrasive materials and hard substances. Light and sturdy, with better abrasion resistance than plastic.

1. High capacity

1550 ml: for handling high volumes of flours, cement powders, aggregates and technical granules.

2. Superior abrasion resistance

Unlike plastic it copes with cement dust, aggregates, sand and gravel: the tool of materials testing laboratories, cement plants and foundries.

3. Penetrating edge

It eases entry even into compacted material, reducing the effort needed. Non-slip texture on the handle.

4. Pressed aluminium, inert

It absorbs neither odours nor flavours and is unaffected by heat. Hand wash with neutral detergent.
