Round aluminium scoop 2600 ml

SKU 2030 · Light weight and abrasion resistance

Round 2600 ml food-grade aluminium scoop, made in Italy, for moving large quantities in the fewest cycles. Light and sturdy, with better abrasion resistance than plastic.

1. The largest in aluminium

2600 ml: designed for heavy-duty handling, it works with abrasive materials without wearing.

2. Superior abrasion resistance

Unlike plastic it copes with cement dust, aggregates, sand and gravel: the tool of materials testing laboratories, cement plants and foundries.

3. Penetrating edge

It eases entry even into compacted material, reducing the effort needed. Non-slip texture on the handle.

4. Pressed aluminium, inert

It absorbs neither odours nor flavours and is unaffected by heat. Hand wash with neutral detergent.
