The collection

Bonzer professional portioners · dariozero®

The Unigrip range uses colour-coded handles: every size has its own colour, so the right portioner is found at a glance. The size number indicates the portions per litre.

Bonzer® Unigrip

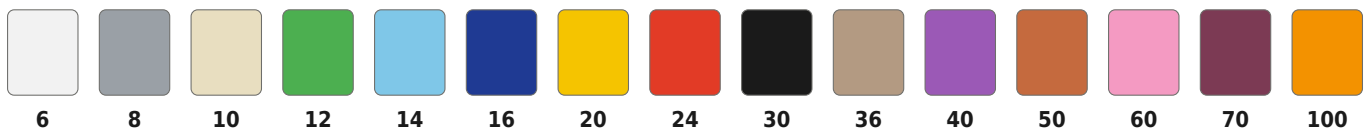

Thumb-press operation

The Unigrip range is designed for intensive, repeated use in service. It is operated by thumb pressure alone, a light movement for fast, continuous portioning without tiring the hand. It is suited to soft, creamy products: mixtures, sauces, creamed tuna, preparations with a soft texture. The handle is easy to operate even during long shifts.

Food-grade stainless steel bowl with scraper mechanism, for a fast and clean release of the product. Components suitable for dishwasher cleaning. Made at the Mitchell & Cooper plant in Uckfield (East Sussex, United Kingdom).

Colour coding

the size indicates the servings per litre

The swatches are colour indicators, not to scale.

Unigrip range

15 sizes · the size = servings per litre · thumb-press operation

Size	Handle colour	Capacity	Dimensions (mm)	SKU	EAN

DARIOZERO

dariozero® — dal 1950

Bonzer® Unigrip 6

Thumb-operated professional portioner, 6 portions per litre

Bonzer® Unigrip professional portioner. Thumb operated, with a single light movement: fast portioning of soft, creamy products such as mayonnaise, sauces, fillings, mashed potato, rice and salads.

1. Thumb-press operation

The mechanism is triggered by a single, light movement of the thumb: fast and low-fatigue even in high-frequency use.

2. Food grade stainless steel bowl

Fast, clean release on every serving; built with no springs and no food traps.

3. HACCP hygiene, dishwasher safe

Simple, thorough cleaning in line with HACCP standards. Dishwasher safe.

4. Colour coding

Each handle colour identifies the size: fast selection in service, consistent portions and less waste.

dariorasero® · Bonzer professional portioners · Mitchell & Cooper Ltd, Uckfield (UK). Nominal dimensions; production tolerances may apply.

Bonzer® Unigrip 50

Thumb-operated professional portioner, 50 portions per litre

Bonzer® Unigrip professional portioner. Thumb operated, with a single light movement: fast portioning of soft, creamy products such as mayonnaise, sauces, fillings, mashed potato, rice and salads.

1. Thumb-press operation

The mechanism is triggered by a single, light movement of the thumb: fast and low-fatigue even in high-frequency use.

2. Food grade stainless steel bowl

Fast, clean release on every serving; built with no springs and no food traps.

3. HACCP hygiene, dishwasher safe

Simple, thorough cleaning in line with HACCP standards. Dishwasher safe.

4. Colour coding

Each handle colour identifies the size: fast selection in service, consistent portions and less waste.
