

Zeroll® Original 10

Gelato scoop

DARIOZERO

Zeroll® Original 10

Gelato scoop · SKU SC1010

Zeroll® Original gelato scoop, Made in USA, distributed for Italy by dariorasero®. The heat-conductive fluid in the handle carries the warmth of the hand to the bowl: easy scooping even of the hardest ice cream, effortlessly.

1. **Heat-conductive fluid in the handle**
The sealed fluid in the aluminium handle carries the warmth of the hand to the bowl: easy scooping even of hard ice cream, with no hot water and no effort.
2. **One piece, no springs**
A single piece, with no moving parts or springs: it forms the perfect ball with a simple turn of the wrist.
3. **Up to 20% more servings**
Rolling instead of pressing removes compression: up to 20% more servings per tub, with higher yield and profitability.
4. **Colour coding and tough alloy**
The colour of the cap identifies the size for constant portion control; the aluminium alloy resists oxidation and corrosion.

SKU SC1010	
Manufacturer code	10
dariorasero SKU	SC1010
